

QueryServer< UMS_Data::ListSessionOptions, UMS_Data::ListSessions >

ListSessionsServer

```
classDiagram
    class QueryServer["QueryServer< UMS_Data::ListSessionOptions, UMS_Data::ListSessions >"]
    class ListSessionsServer
    QueryServer <|-- ListSessionsServer
```

The diagram illustrates a generalization relationship between two classes. The superclass, `QueryServer< UMS_Data::ListSessionOptions, UMS_Data::ListSessions >`, is located in the upper box. The subclass, `ListSessionsServer`, is located in the lower box. A vertical line with an open arrowhead at the top connects the two boxes, indicating that `ListSessionsServer` inherits from or specializes `QueryServer`.
